6. Incentive Programs:

a) Combined Earned Frequency: All insertions of a parent company and its subsidiaries are combined to determine the earned rate. Advertisers may combine space units run in all SLACK publications to achieve maximum rate frequency.

b) New Advertiser/Product Incentive: New product advertisers receive a 10% discount off all advertising placed in 2011 with a minimum 3 ad commitment. This discount may not be combined with the Continuity Incentive. It may be combined with the Psychiatric Market Reach Incentive. To qualify as a new product advertiser, the advertisement must either be for a:

- Company that has not advertised in PSYCHIATRIC ANNALS in the past calendar year; or
- New product from a company currently advertising with PSYCHIATRIC ANNALS; or
- New indication for an existing product currently advertising in PSYCHIATRIC ANNALS.

c) Continuity Incentive: Advertisements for an individual product are eligible for a discount based upon the number of issues in which they advertise. Issue insertions do not need to be consecutive. This program may not be combined with the New Advertiser/Product Incentive.

- 3 issues = 5% off
- 6 issues = 10% off
- 12 issues = 15% off

d) Psychiatric Market Reach Incentive: Advertise the same product, in the same month in both PSYCHIATRIC ANNALS and JOURNAL OF PSYCHOSOCIAL NURSING and receive a \$300 discount on a page-for-page basis in both publications. Fractional pages receive \$50 off on a page-for-page basis.

e) SLACK Corporate Discount: Take advantage of SLACK'S advertising, custom publishing, event management, and other marketing services in 2011 and earn valuable discounts in 2012. Spend levels achieved in 2011 will determine your SLACK Corporate Discount savings in 2012.

f) When taking advantage of more than one discount program, discounts must be taken in the following order:

Gross cost

- 1) Less Psychiatric Market Reach Incentive
- 2) Less New Advertiser/Product or Continuity Incentive
- 3) Less SLACK Corporate Discount
- 4) Less 15% agency discount

Equals net cost
